

Orange County Adult Protective Services Fact Sheet

The number of reports received by APS increased 65% from 2000 through 2010 and 8% from 2009. Significant growth occurred from 1999 through 2002, after the implementation of SB 2199. A spike in the number of reports received occurred in 2007 when Financial Institutions became mandated reporters. Reports to APS continue to steadily increase.

Unduplicated Reports Taken at OC Adult Abuse Registry

- APS serves adults with physical or mental impairments, as well as the elderly.

Elder and Dependent Adult Victims

YEAR	REPORTS	ELDERS	DEPENDENT ADULTS
2010	7422	72%	28%
2009	6870	71%	29%
2008	6567	70%	30%
2007	6355	70%	30%
2006	5650	71%	29%
2005	5418	70%	30%
2004	5219	69%	31%
2003	5049	69%	31%
2002	5273	71%	29%
2001	4973	72%	28%
2000	4503	77%	23%

- The most common type of abuse reported is self neglect, the failure to provide for one's own care.
- Individuals who are abused by others are most likely to have been neglected or financially abused; these two types of abuse often go hand-in-hand.

Abuse Occurrence Rates 2010

ABUSE BY SELF	FREQUENCY
Physical Care	25%
Medical Care	30%
Health & Safety	35%
Malnutrition/Dehydration	4%
Financial	6%

ABUSE BY OTHERS	FREQUENCY
Physical	16%
Sexual	2%
Financial	29%
Neglect	27%
Abandonment	1%
Isolation	2%
Abduction	0.2%
Psychological	24%

- The vast majority of abusers are relatives of the victims.

Alleged Abusers in APS Reports 2010

- The incidence of elder abuse increases significantly with age. Those age 85 and over are 5 times more likely to be suffering from abuse as those ages 65-69.

Elder Abuse Reports by Ages Orange County 2010			
Age	Unduplicated Victims	Population*	Incidence
65-69	639	104,272	1:163
70-74	713	79,397	1:111
75-79	890	63,172	1:71
80-84	1215	48,246	1:40
85+	1893	47,754	1:33
Total	5350	342,841	1:75
