### Milestones in the Development of the Center of Excellence on Elder Abuse and Neglect, University of California, Irvine

<table>
<thead>
<tr>
<th>Year</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>2000</td>
<td>The Vulnerable Adult Specialist Team is established as part of the Program in Geriatrics at the University of California, Irvine. Program pairs medical doctors and psychologists with county social service professionals to handle cases of suspected elder abuse.</td>
</tr>
<tr>
<td>2001</td>
<td>Program in Geriatrics receives grant from the National Institutes of Justice to undertake the first ever study of bruising in the geriatric population.</td>
</tr>
<tr>
<td>2003</td>
<td>The world’s first Elder Abuse Forensic Center is established with a grant from the Archstone Foundation. The Forensic Center is staffed by professionals from legal, medical, social services, and law enforcement agencies who conduct case reviews, in-home medical and mental status, and evidentiary investigation. The collaboration brings these experts together to better understand, identify and treat elder abuse, determine more efficient ways to successfully prosecute elder abuse cases and support the prevention of elder abuse through greater awareness and education among those professionals who work with older and disabled adults.</td>
</tr>
<tr>
<td>2005</td>
<td>The Forensic Center receives a grant from the Archstone Foundation to establish a multi-disciplinary Center of Excellence on Elder Abuse and Neglect. The Center serves as a central source of technical assistance, best practice information, multidisciplinary training, useful research, and relevant policy issues on the topic of elder abuse. The UniHealth Foundation gives a grant for the Center of Excellence to establish an Elder Abuse Training Institute. Elder Abuse Investigations Peace Officer Standardized Training established and presented to an inaugural class of law enforcement officers.</td>
</tr>
<tr>
<td>2006</td>
<td>NY Times article: “Forensic Skills Seek to Uncover Elder Abuse” (September 27) highlights work of the Elder Abuse Forensic Center. Second bruising study starts with grant from the NIJ: “Bruising as a Forensic Marker of Physical Elder Abuse”</td>
</tr>
<tr>
<td>2007</td>
<td>Geriatric Pocket Doc published. A field guide for non-physicians, GPD is used by social workers, law enforcement, attorneys, judges, and aging services providers.</td>
